

hth[®] Carral[®]

Chlorine Based Cleaning Product for
Commercial Swimming Pools and Spas

Product Description

hth[®] Carral[®] is a dry stabilized chlorine based product designed for cleaning and disinfection of tiled or concrete walls and floors of pools. It works effectively against algae, mould and fungal infestation.

Areas of Use

- **Surface cleaning and disinfection of pool walls and floors**

Product Benefits

- **Removes algae and mould from grout joints**
- **High active chlorine content of around 90% TCCA**
(Trichlorisocyanuric acid)
- **Slow dissolving and long lasting**
- **Leaves no residue**
- **No brushing required**
- **Non-foaming**
- **Compatible with any filter**
- **Effective in all water types, even hard water conditions**
- **Minimum 5 years shelf life when stored appropriately**

Formats, Application and Packaging

Carral[®] - TCCA slow dissolving granular that leaves no residue. Easy to use dosing cup, dosed manually* to affected areas.

Standard pack sizes:

- **25kg pails**

NOTE: The availability of products, pack sizes and label languages vary by country. Contact your local sales representative for more details.

Regulatory

hth® Carral® meets the requirements of EN 15032 - chemicals for the treatment of swimming pool water.

The active substance contained within this product is being supported through the European Biocidal Product Regulation (BPR) Active Substance Review Program for amongst others, the following product types:

- **PT2** (usage areas include, amongst others: swimming pools, aquariums, bathing and other waters).

Please note: customers should determine with their Lonza representative whether the product of interest has the necessary individual country permission(s) to place onto the market for the application of interest.

Dosing

Be sure to apply Carral® at the end of the day, when no bathers are present. Dose the product by scattering close to the area that needs treating.

Dose rate: 30 g per m² surface

Storage

Please refer to instructions on specific pack labels. If in doubt contact your local Lonza Sales Manager.

Health and Safety

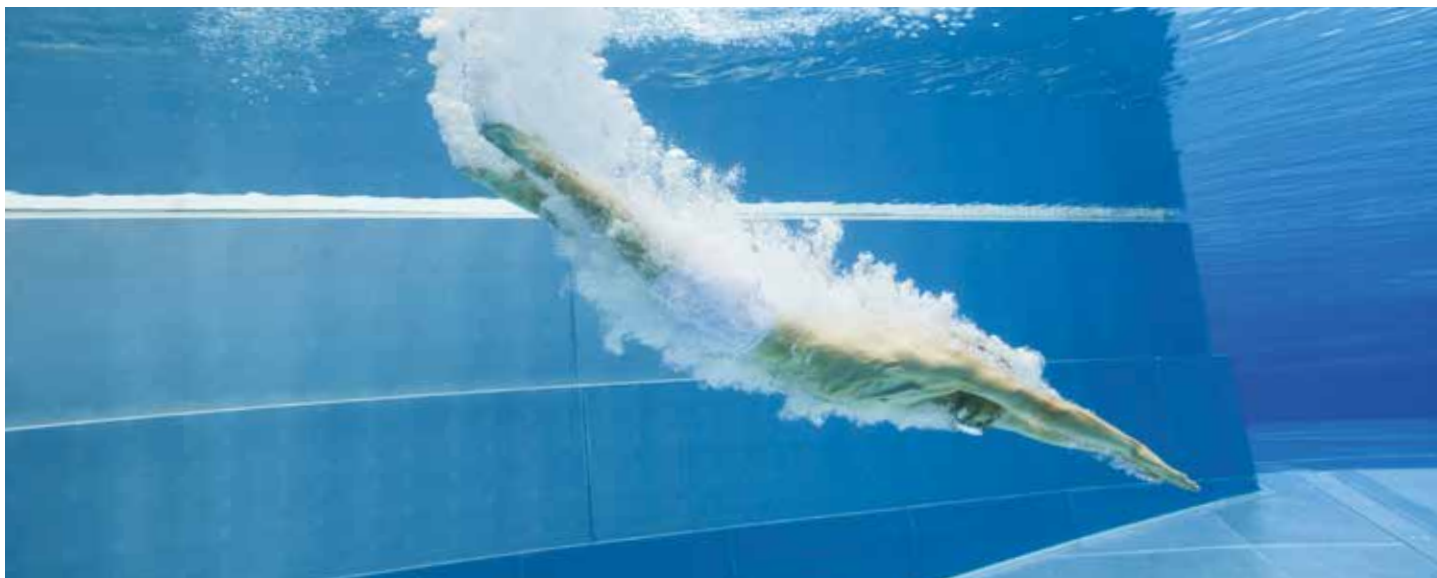

Product Safety Data Sheets are available. They should be read and understood by all supervisory personnel and employees before using the product. If there is any doubt please contact your local Lonza sales office for advice.

Service and Support

Lonza professionals have many years of experience within the water treatment industry, with considerable knowledge of both products and equipment. We are committed to providing this expertise to assist you in your choice of product and its suitability for specific applications. Our support includes supplying site surveys, systems design, maintenance and repair solutions, product stewardship and training in the appropriate storage, usage and handling of water treatment chemicals.
