

hth® Borkler® Gel

Cleans Scale and Grease Deposits of Commercial Swimming Pools and Spas

Product Description

hth® Borkler® is a highly concentrated self-active cleaning gel product, designed for the removal of scale and grease deposits along the waterline of swimming pools and spas.

It was developed in close collaboration with pool manufacturers to ensure compatibility with materials used for most pool surfaces - liners, tiles etc.

Areas of Use

- **For regular and periodic deep cleaning of pool and spa's waterline areas**

Product Benefits

- **Effective self-cleaning power - no need to scrub, except on old and stubborn stains**
- **Eliminates scale deposits**
- **Restores colour and shine to dull surfaces**
- **Thick gel formulation has high adhesion to vertical surfaces***
- **Suitable for most pool surface materials†**
- **The diluted product will not affect pool water quality**
- **Low foaming**
- **Minimum 5 years shelf life when stored appropriately**

Formats, Application and Packaging

Borkler® Gel - Thick cleaning gel, applied manually with sponge or brush.

Standard pack sizes:

- **10 Litre container**
- **25 Litre pail**

NOTE: The availability of products, pack sizes and label languages vary by country. Contact your local sales representative for more details.

*Continued shaking of Borker® Gel can turn it into a liquid, but if left to settle for 24 hours, will return to a gel state.

†Borkler® Gel can be used for cleaning of a number of different surfaces – always test compatibility on a sample area.

Please note: customers should determine with their Lonza representative whether the product of interest has the necessary individual country permission(s) to place onto the market for the application of interest.

Dosing

1.	Dampen surfaces with pool water
2.	Apply hth ® Borkler® Gel with a sponge or brush
3.	If required, work the gel into stubborn areas
4.	Leave for 10 minutes
5.	Rinse off with pool water
6.	Repeat if needed

Storage

Please refer to instructions on specific pack labels. If in doubt contact your local Lonza Sales Manager.

Health and Safety

Product Safety Data Sheets are available. They should be read and understood by all supervisory personnel and employees before using the product. If there is any doubt please contact your local Lonza sales office for advice.

Service and Support

Lonza professionals have many years of experience within the water treatment industry, with considerable knowledge of both products and equipment. We are committed to providing this expertise to assist you in your choice of product and its suitability for specific applications. Our support includes supplying site surveys, systems design, maintenance and repair solutions, product stewardship and training in the appropriate storage, usage and handling of water treatment chemicals.
