

hth® Sterisol Extra

Broad Spectrum Surface Disinfectant for Commercial Swimming Pools and Spas

Product Description

hth® Sterisol Extra is a highly efficient, aldehyde-free biocidal product. Even at low concentrations, it provides reliable surface disinfection around pool or sports complexes.

Areas of Use

- **Disinfection of floors, walls, waste bins, toilets, changing rooms**
- **Post-cleaning treatment for regular or specific use**

Product Benefits

- **High active ingredient content**
- **Broad spectrum of protection: disinfectant / bactericidal / yeasticidal / virucidal** (including Influenza A)*
- **Long-lasting purifying action**
- **Compliant with European disinfection standards**
- **'Pine Tree' fragrance**
- **Minimum 5 years shelf life when stored appropriately**

Formats, Application and Packaging

Sterisol Extra - Highly concentrated liquid surface disinfectant. Dilute appropriately, apply via spray equipment to required areas.

Standard pack sizes:

- **10 / 20 Litre Container**

NOTE: The availability of products, pack sizes and label languages vary by country. Contact your local sales representative for more details.

* NOTE: Despite its high efficiency at low concentration (5-10%), Sterisol Extra isn't a pharmaceutical preparation for treatment of Mycoses.

Regulatory

hth® Sterisol Extra conforms to Regulation (EC) 648/2004 on detergents.

The active substance contained within this product is being supported through the European Biocidal Product Regulation (BPR) Active Substance Review Program for amongst others, the following product types:

- **PT2** (usage areas include: swimming pools, aquariums, bathing and other waters)
- **PT4** (usage areas include: disinfection of equipment, containers, surfaces)

Please note: customers should determine with their Lonza representative whether the product of interest has the necessary individual country permission(s) to place onto the market for the application of interest.

Dosing

- | | |
|----|--|
| 1. | Surfaces have to be cleaned before treatment |
| 1. | Dilute 1L of product in 10L of water, max. 40°C in a clean container and apply with a watering can or a spray unit |
| 3. | Leave to dry naturally (do not rinse) |

Storage
